## ON-TIME DELIVERY

Meeting customer's expectations and delivery requirements has to be a priority for every business. When you ship your cargo, your number one concern is that will they reach the consignee on time. We expertise in this and make sure all our OTD Shipments are executed well before the dates committed.

## PERISHABLE CARGO

The most serious and sensitive logistical operation is perishable cargo transportation, which is defined as a process that comprises delivery and adequate storage conditions. Because of their complexity, some products may require temperature and humidity management. As a result, perishable cargo transportation is required in order for the product to maintain a steady temperature and to be easily transported in hot or cold climates.

With its unconditional customer service understanding, We offer 24/7 service with its dedicated expert staff in perishable cargo, which is one of the most serious and sensitive logistics operations. It meticulously carries out all the necessary processes from the delivery of perishable cargo products to the loading, storage, shipment to the desired destination, and delivery at the destination point, while maintaining the necessary temperature gap chain.

## DANGEROUS GOODS

Because of our extensive and in-depth knowledge of Dangerous Goods Regulations, we can deliver your shipment with assurance. We verify that your shipments are fully compliant with national and international requirements and standards of packaging, labelling, and documentation to ensure safe transportation.
